

Baseball NSW Unveils New Registration System

31st May 2019

Baseball NSW, in partnership with Sports Club HQ, are pleased to announce the release of our new registration system, competition management, website and app effective this coming July.

We have created a customized registration system and competition management system which will be aligned with our new website and app providing a streamlined user experience. We are excited with the new look and simplistic layout with an aim to provide information in a timely and efficient manner to all our members.

The system provides a much simpler and efficient Registration and Payment process for end users as well as the inherent administration benefits for Club administrators. Organizing your competitions will be significantly easier and more user friendly.

The new systems will be rolled out on July 1st, 2019 with training sessions held across various locations. So please ensure your nominated representative can make it along to one of these various events. Should you not be able to attend we have webinar resources as well as office support.

The new website and the Baseball NSW dedicated App will also be launched concurrent with the registration system this July.

We hope that the Baseball NSW App will be 'the' communication platform for our clubs in NSW. The app is the ideal place for coaches and managers to connect with parents, families and carers of the children in your team. The app allows you to create private groups for your club. Features of the app includes groups, notifications, integrated fixtures, photo and video sharing, events and documents.

Mark Marino, CEO of Baseball NSW, has stated that "We are finally pleased to announce a customized system that will efficiently serve the need of our members. I thank the membership for their patience while we diligently sought the best solution for our baseball community."

Jason Farmer, CEO of Sports Club HQ, commented on the partnership;

"Sports Club HQ are proud to partner with Baseball NSW in delivering the new digital platform for the sport.

PRESS RELEASE

We are excited to play our role in the team in driving the sport forward, by delivering a fully unified solution from; Registrations & Memberships to Competition Management fully integrated into the Communications and Apps.

At Sports Club HQ we understand that volunteers are the lifeblood of sport, and we are here to make their lives easier. We have strong focus on the end user by providing access to the most relevant information, in their hand, in real time. We will deliver mobile applications that provide Club & Team Communications in the same space you can access your season schedule and ladder position.

We look forward to being a part of the Baseball NSW family.”
